Mode of Execution: Sequential

Step Executed	Message	Image	Status
1. Home [Go to Login]			Completed
1. Launch Webdriver for - In House - Local - localhost - 4444 - Windows - 10 - Desktop - Desktop - NA - NA - Chrome - 65 - N/A - NA x NA	As Expected	N/A	PASS
2. Navigate To Url - https://staging2.myfulcrum.com/	As Expected	N/A	PASS
3. Wait for 4000 millis	As Expected	N/A	PASS
4. Perform action Click using value Login on field Login using hint - CSS Selector - li>a[href='login-form.php']	As Expected	N/A	PASS
2. Login [Project Manager Login_Staging]			Completed
1. Perform action Enter using value redmi@yopmail.com on field Username using hint - CSS Selector - input[name='auth_name']	As Expected	N/A	PASS
2. Perform action Enter using value 123456 on field Password using hint - CSS Selector - input[name='auth_pass']	As Expected	N/A	PASS
3. Wait for 3000 millis	As Expected	N/A	PASS
4. Perform action Click using value click on field Login using hint - CSS Selector - fn { concatenate { content("input[name=" , keyword { name "loginKey" defaultValue "auth_login" } }	As Expected	N/A	PASS

```

, ""
)
}
}

```

5. Wait for 3000 millis	As Expected	N/A	PASS
-------------------------	-------------	-----	------

3. App Navigation [Fulcrum Automation Transmittal_Staging]

Completed

1. Perform action Expand and Select using value New on field Active Projects using hint - CSS Selector - div.menuheader	As Expected	N/A	PASS
2. Wait for 8000 millis	As Expected	N/A	PASS
3. Wait for 5000 millis	As Expected	N/A	PASS
4. Perform action Expand and Select using value Transmittal on field Project Management using hint - CSS Selector - div.menuheader	As Expected	N/A	PASS
5. Wait for 6000 millis	As Expected	N/A	PASS

4. Transmittal [Verify User able to view and Create New Transmittal]

Completed

1. Perform action Click using value Click on field Create Transmittal using hint - CSS Selector - input[value='Create Transmittal']	As Expected	N/A	PASS
2. Perform action Select using value Manpower Notice on field Type using hint - Id - transmittal_type	As Expected	N/A	PASS
3. Perform action Enter using value Testing Comments for Trnsmittal on field Comments using hint - CSS Selector - textarea[id='comments']	As Expected	N/A	PASS
4. Perform action Select using value click on field Email To using hint - XPath - //p[contains(text(),'To: ')]//div[@class='fs-label'][contains(text(),'Select A Contact')]	As Expected	N/A	PASS
5. Perform action Enter using value sugan@yopmail.com on field Search To using hint - XPath - //div[@class='fs-dropdown']//input[@placeholder='Search']	As Expected	N/A	PASS
6. Wait for 1000 millis	As Expected	N/A	PASS
7. Perform action Click using value sugan@yopmail.com on field SelectEmail using hint - CSS Selector - div.fs-option-label	As Expected	N/A	PASS
8. Wait for 2000 millis	As Expected	N/A	PASS

9. Perform action Enter using value Testing text for transmittal on field Additional Body text using hint - CSS Selector - textarea[id*='textareaEmailBody']	As Expected	N/A	PASS
10. Perform action Click using value Click on field Save And Email transmittal using hint - CSS Selector - input[value='Save and Email Transmittal']	As Expected	N/A	PASS
11. Wait for 8000 millis	As Expected	N/A	PASS
12. Close Webdriver	As Expected	N/A	PASS

2. Transmittal - [Verify user able to[view:Yes ,Manage:No]]

PASS

Dataset - Verify user able to[view:Yes ,Manage:No]
